long lasting alcohol free
protection for your hands

PureBioGuard™ HandSanitiser is a unique product that forms a protective antimicrobial barrier on your hands, offering long lasting protection against germs while gently moisturising the skin.

A single application of PureBioGuard™ Hand Sanitiser on the skin not only eliminates and inactivates bacteria, viruses and fungi, but also prevents reinfection by maintaining a long lasting protective barrier. Other hand sanitisers on the market today are primarily ethyl or isopropyl alcohol formulations, which are largely antibacterial in nature and only provide protection for a few minutes.

PureBioGuard™ Hand Sanitiser utilises a physical kill by lysing or stabbing the outer membrane of the pathogen, (see diagram), Vs. traditional alcohol hand sanitizers that poison the pathogen.

What is the true cost of hygiene to business?

Any impact to the health and well-being of staff is detrimental to a business. It affects not only staff morale but also productivity and efficiency. A recent study showed that on average, each sick day taken by an employee costs the employer \$385 in productivity and profits. Businesses lose approximately \$17 billion each year to employee sick days.

It has been estimated that up to 80% of all infections are spread by hand contact with contaminated surfaces and direct human contact. Therefore, almost all surfaces we touch or come in contact with will be a harbour of germs and bacteria.

Are your staff protected?

Some of the most contaminated places in a workplace:

- Money
- Bathrooms
- Elevator buttons
- Telephones
- Hand rails
- Water fountains
- Keyboards
- Doorknobs

- Alcohol Free.
- Forms a protective antimicrobial barrier on your skin.
- Kills Norovirus.
- Will kill all strains of Staphylococcus.
- Non-toxic.
- Gently moisturises your skin.
- Long lasting protection against pathogenic organisms including; viruses, fungi, and bacteria including; Golden staph, Streptococci, and E.coli.

Hand Sanitiser Comparison

	PureBioGuard™ Hand Sanitizer	Other Hand Sanitisers
Long lasting protection	✓	Alcohol based protection lasts 30 seconds
No alcohol	✓	60% plus alcohol content
Non-flammable, non-toxic	✓	Highly flammable and toxic.
Leaves your hands soft with aloe vera	✓	Removes natural oils from your skin
Physical kill of specific pathogens	✓	Kills by poisoning the cells
Moisturises your hands and prevents skin cracking	✓	High alcohol content promotes skin cracking
Does not cause germ/bacteria mutations	✓	Encourages mutations and 'superbugs'
Fresh aroma	✓	Unpleasant alcohol odour
