long lasting alcohol free protection for your hands

PureBioGuard™ Hand Sanitizer is a unique product that forms a protective antimicrobial barrier on your hands, offering long lasting protection against germs while gently moisturizing the skin.

A single application of PureBioGuard™ Hand Sanitizer on the skin not only eliminates and inactivates bacteria, viruses and fungi, but also prevents reinfection by maintaining a long lasting protective barrier. Other hand sanitizers primarily contain ethyl or isopropyl alcohol formulations and only provide protection for a few minutes.

PureBioGuard™ Hand Sanitizer works by destroying the outer membrane of the pathogen, (see diagram).

Alcohol based hand sanitizers poisons the pathogen, thus triggering microbe resistance over time

The true cost of maintaining Hygiene for businesses

Any impact to the health and well-being of employees is detrimental to a business. It affects not only staff morale but also productivity and efficiency.

A recent study showed that they lose \$17 billion each year to employee sick days.

It has been estimated that up to 80% of all infections are spread by hand contact with contaminated surfaces and direct human contact. Therefore, almost all surfaces we touch or come in contact with will be a harbor of germs and bacteria.

PureBioGuard Features:

- Alcohol Free .
- Forms a protective antimicrobial barrier on your skin.
- Will kill all strains of Staphylococcus.
- Non-toxic.
- Gently moisturizes your skin.
- Long lasting protection against pathogenic organisms including; viruses, fungi, and bacteria, Golden staph, Streptococci, E.coli., Norovirus, Human Corona virus

Some of the most contaminated places in a workplace:

- Money
- Bathrooms
- Elevator buttons
- Telephones
- Hand rails
- Water fountains
- Keyboards
- Doorknobs

Hand Sanitizer Comparison

	PureBioGuard™ Hand Sanitizer	Other Hand Sanitizers
Long lasting protection	✓	Alcohol based protection lasts 30 seconds
No alcohol	✓	60% plus alcohol content
Non-flammable, non-toxic	✓	Highly flammable and toxic.
Leaves your hands soft with aloe vera	✓	Removes natural oils from your skin
Physical kill of specific pathogens	✓	Kills by poisoning the cells
Moisturises your hands and prevents skin cracking	✓	High alcohol content promotes skin cracking
Does not cause germ/bacteria mutations	✓	Encourages mutations and 'superbugs'
Fresh aroma	✓	Unpleasant alcohol odour
